Lumen Bikes · Travel Policy

Version 2.0

1. Before you travel

Every business trip must be approved by your manager in the Travel app before you book anything. Book flights and hotels through our travel agency, TripDesk, at least 14 days before the trip whenever possible.

2. Flights and trains

Take the train for any trip under 4 hours. Economy class is the standard for flights. Premium economy is allowed for flights longer than 6 hours, and business class only for flights longer than 10 hours or with the approval of a director.

Keep your boarding passes: Finance needs them to close the trip. Air miles and loyalty points earned on business trips are yours to keep.

3. Hotels

Hotels are covered up to 130 euros per night in Spain and up to 180 euros per night in the rest of Europe. In London, Paris and Zurich the limit is 220 euros per night. Breakfast is included in the hotel limit when the hotel offers it.

4. Local transport

Use public transport whenever possible. Taxis and ride-hailing are covered between the airport and the hotel, and after 22:00. Renting a car needs your manager's approval; if you rent a car, choose an electric or hybrid model.

5. After the trip

Submit all receipts in the Expenses app within 30 days of your return. Trips that are not closed within 60 days are flagged to your manager. If you were sick or delayed during the trip, tell People Ops: you are covered by the company travel insurance, policy number LB-TRAVEL-2026.
